

TECHNOLOGY UPDATE

May 25, 2023

CYBER SECURITY TIPS

It is more important now than ever to stay informed and take steps to protect student and staff accounts across the district.

Technology Services is working hard to keep our systems and data secure, but we also need your help.

Check out the [new tip](#), each week, for general information on password security, phishing scams, and data protection. Learn how to recognize and avoid common security threats and play your part in keeping your accounts safe.
